## **ABOUT LISTENING GLYPHS**

Glyphs are pictures of facts. Listening glyphs provide young students with a way to express the “facts” about what they hear in a musical selection.

## **CONTENTS**

General Listening Glyph (For any piece of music)

Listening Glyph for Star Wars "Main Title"

Blank Listening Glyph (Greater freedom to assess any piece of music)

## **INSTRUCTIONS**

Discuss the worksheet, and then listen to the recording. Ask students to begin coloring each part of the picture based on what they hear. Play the recording 2 or 3 more times as they color their picture.

## **EXTENSION**

Steady Beat - If students are struggling to hear a steady beat, pass out hand drums and ask them to play a steady beat with the recording.

Trumpet/Percussion - The Star Wars "Main Title" worksheet asks students to identify if a trumpet and percussion instruments are playing. Consider preceding this lesson with brass family and percussion family lessons.
